DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven Elleman on 24 August 2006.

The application has been amended as follows:

- 56. (Cancelled)
- 117. (Cancelled)
- 135. (Cancelled)
- 136. (Cancelled)

Examiner's Statement Of Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest a microstructure system including all of the limitations as claimed in independent claims 28, 118 and 129, but more specifically does not teach a plurality of solderable surfaces coupled to the microstructure formed on a lower wafer portion and **not** located within the coverage area so that the solderable surfaces are not positioned under the upper wafer portion to provide easy access to the solderable surfaces. The prior arts of record, relied upon in the rejections (now withdrawn) previously presented, fail to disclose solderable surfaces in the specific location as claimed by Applicant.

Art Unit: 2874

On the contrary, the prior art teaches the solderable surfaces to be placed within the wafer portion in order to minimize the size of the microstructure.

Therefore, claims 28, 31-38, 40, 42-55, 113, 114, 116, 118-121, 128-130, 131-134 and 137 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
